

1.0 MISSION

- To advocate the use of plants and thoughtful design to create wellbeing for people, add value and repair our environments.
- To continue to develop our reputation for showing commitment to our clients and their projects through trust, communication, hard work and by going the extra mile.

2.0 BUSINESS PROFILE

Plantlife is a landscape and garden design company based in the Southern Highlands, NSW servicing the local area, Sydney's City, Eastern Suburbs, Lower North Shore, Canberra, Southern Tablelands, the South Coast and beyond.

The company has a vast portfolio of completed landscape and garden projects spanning residential, commercial, government, community, healthcare, hospitality, television and sponsorship. We are committed to provide projects with meaning, a sense of place and to make a real difference to peoples environments and plan for endurance on each site to ensure the benefits of the changes will be there for future users.

We endeavour to offer innovative, creative and functional solutions by applying a situational awareness in respect to each project, the client and the surrounding environment. Through the implementation of sound horticultural and design principles, creativity, innovation, attention to detail, effective communication and our passion for creating gardens, we continue to complete successful projects for our highly valued, mostly referred clients.

We collaborate with our clients and consultants including our valued network of partners selected over many years to provide professional advice and solve technical issues. These include architects, planners, interior designers, structural, hydraulic and electrical engineers, land managers, plant growers, lighting designers, product suppliers and many tradespeople.

Peter Morgan is director, principal designer and qualified Horticulturist at Plantlife. He established the business in 1996 after completing a Diploma of Horticulture and further studies in Landscape Design from Canberra Institute of Technology. He has travelled the world exploring and visiting gardens and has brought this inspiration with him to design, install and renovate both new and established gardens throughout the past 19 year period. He is passionate about the plant world, design, travel and architecture and strives to create environments that add value to our lives while returning value to the landscape. Please call Peter on 0412 577 088 or email design@plantlife.net.au for project inquiries.
